

*These are the survey questions (including any preamble) and detailed tables of a **Toronto Sun/National Post DART Insight** poll created and analyzed in full consultation and under the direction of veteran pollster John Wright, CEO of **DART Insight**, a division of **DART Insight and Communications Inc.** The data was collected in partnership with Canada's national survey sample research provider **Maru/Blue** that curates a vast Online Panel and provides data collection services.*

All questions herein were placed carefully on the questionnaire and then randomized to ensure that there was no inter-item contamination.

*The survey was conducted on a total split sample of 5,769 randomly selected Canadian adults who are members of **Maru/Blue**'s Online panel between September 13-19, 2018. Respondents could opt in for either official language. The results have been weighted by education, age, gender, and region to match the population, according to Census data. This is to ensure the sample is representative of the entire adult population of Canada. Discrepancies in or between totals are due to rounding. The precision of this **DART Insight** Online poll is measured using a Bayesian Credibility Interval. In this case, a weighted split sample size of 2,902/2,867 is accurate to +/- 2.1% 19 times out of 20, had all Canadian adults been polled. The credibility interval will be wider among subsets of the population and individual provinces.*

*Paired/Overlap T-Test for Means, Paired/Overlap Z-Test for Percentages
Uppercase letters indicate significance at the 95% level.*

7. Maxime Bernier is an elected member of the Federal Parliament of Canada from Quebec who recently resigned from the Federal Conservative party to form his own Party. He said the Conservative Party of Canada is not Conservative enough and he is opposed to: Canada's production quotas for dairy, poultry and eggs; the use of retaliatory trade tariffs against the U.S.; current immigration and multiculturalism policies and what he calls "extreme diversity"; federal equalization transfers; "corporate welfare"; and, regional economic agencies that subsidize businesses.

Based on this, how likely is it that you could consider voting for his new Party in the 2019 Federal election?
