

*These are the survey questions and detailed tables of a **Toronto Sun/National Post DART Insight** poll created in full consultation and analyzed and under the direction of veteran pollster John Wright, CEO of **DART Insight**, a division of **DART Insight and Communications Inc.** The data was collected in partnership with Canada's national survey sample research provider **Maru/Blue** that curates a vast Online Panel and provides data collection services. All questions herein were placed carefully on the questionnaire and then randomized to ensure that there was no inter-item contamination.*

*The survey was conducted among a randomly selected group of 669 Toronto adults who are members of the National **Maru/Blue** Online panel between October 12-15, 2018. The results have been weighted to the latest census data for the city of Toronto. The precision of this **DART Insight** Online poll is measured using a Bayesian Credibility Interval. In this case, a weighted sample size of 669 is accurate to +/- 4.3% 19 times out of 20, had all Toronto adults been polled. What follows, is an analysis of the findings. Any discrepancies in or between totals are due to rounding.*

*Paired/Overlap T-Test for Means, Paired/Overlap Z-Test for Percentages  
Uppercase letters indicate significance at the 95% level.*
