From Pre-Writ to Post-Blackface: a Bump **Up** for the Conservatives, a Notch **Lower** for the Liberals

*Scheer's Conservatives (37% **+2**) Lead Nationally (and in Ontario **+3**) to Trudeau's Liberals (30% **-2**), Singh's NDP (15% *N/C*), May's Green Party (8% *N/C*), and Bernier's Peoples Party (3% **+1**) with Blanchet's Bloc Québécois at 26% in Quebec (**+3**)*

For Public Release September 23, 2019

*These are some of the data tables of a **DART & Maru/Blue Voice Canada** conducted as part of a regular sounding of Canadians on various issues and matters that affect their lives as citizens, consumers, and voters. The research is created and analyzed under the direction of veteran pollster John Wright, who is a Partner of **DART C-Suite Communicators**. Data was collected by Canada's national survey sample research provider **Maru/Blue** using their **Voice Canada** Omni Online curated panel. **DART & Maru/Blue** are members of the Canadian Research Insights Council and adhere to the professional disclosure standards which can be accessed at:*

<https://canadianresearchinsightscouncil.ca/standards/>

*The survey was conducted among 1,517 randomly selected Canadian adults who are members of **Maru/Blue's** Online panel on September 20, 2019. The survey identified 1,303 decided or leaning voters out of the total sample. Respondents could opt in for either official language. The results have been weighted by education, age, gender, and region to match the population, according to Census data. This is to ensure the sample is representative of the entire adult population of Canada. Reporting of results from Prince Edward Island, Nunavut and both the Yukon and Northwest Territories is excluded because of extremely small sample sizes. Discrepancies in or between totals are due to rounding. Voter intent is weighted by past vote and demographics. The precision of this **DART & Maru/Blue Voice Canada Poll** is measured using a Bayesian Credibility Interval. In this case, the poll is accurate to within +/- 2.9 percentage points, 19 times out of 20, had all Canadian adults been polled. The credibility interval will be wider among subsets of the population and individual provinces.*
