For Public Release December 7, 2019

*These are some of the data tables of a **DART & Maru/Blue Voice Canada** conducted as part of a regular sounding of Canadians on various issues and matters that affect their lives as citizens, consumers, and voters. The research is created and analyzed under the direction of veteran pollster John Wright, who is a Partner of **DART C-Suite Communicators**. Data was collected by Canada's national survey sample research provider **Maru/Blue** using their **Voice Canada** Omni Online curated panel. **DART & Maru/Blue** are members of the Canadian Research Insights Council and adhere to the professional disclosure standards which can be accessed at:*

<https://canadianresearchinsightscouncil.ca/standards/>

*The survey was conducted among 593 randomly selected Ontario adults who are members of **Maru/Blue's** Online panel on December 4, 2019. The results have been weighted by education, age, gender, and region to match the population, according to Census data. Discrepancies in or between totals are due to rounding. The precision of this **DART & Maru/Blue Voice Canada Poll** is measured using a Bayesian Credibility Interval. In this case, the poll is accurate to within +/- 4.6 percentage points, 19 times out of 20, had all Ontario adults been polled. The credibility interval will be wider among subsets of the population and individual provinces.*
